

# Accelerate, Optimize, and Innovate

## Services Overview

Composable Network Test Labs (CNTL) revolutionize testing with flexibility, speed, and cost reduction. CNTL's dynamic environments and streamlined automation break down testing silos, empowering you to create and modify complex test scenarios on demand. To fully harness this power, a tailored approach is essential. Our CNTL services provide the strategic guidance, seamless deployments, and continuous optimization you need to achieve your specific testing goals and unleash CNTL's full potential.

*"Getting to market with the right product at the right time provides us with better revenue opportunities. This ability to capture business opportunity is by far and away the biggest benefit delivered to us."*  
- Large Equipment Manufacture

## Unleash the Full Potential of Network Test Labs

With CNTL, you've invested in the future of testing, a future defined by innovation and agility. Now, it's time to make that investment pay off quickly and effortlessly. Our CNTL services streamline the process, delivering rapid time-to-value with intuitive setup and configuration. We provide the expertise to free your team from complex deployment tasks, empowering them to focus on what they do best – testing innovation.

### Accelerate Time-to-Value

Planning, deployment, and enablement for faster results.

### Optimized Efficiency

Maximize resources, automate workflows, and boost productivity.

### Continuous Innovation

Adapt your test environments to drive speed and agility.

## Trusted Partner in your Journey to CNTL Excellence

Unlock CNTL's unprecedented flexibility for your network test lab. Our comprehensive services guide you every step of the way, ensuring a smooth, efficient experience that maximizes your return on investment. We provide expert support from strategic guidance and planning through deployment and ongoing optimization, allowing you to focus on accelerating your testing outcomes.

### Strategic Guidance

Chart your course for CNTL success, accelerating time to value.

- Clear roadmap for deployment
- Optimized solution design
- Reduced project risk

### Seamless Deployment

Embark on a smooth CNTL rollout for optimized efficiency.

- Rapid time-to-value
- Minimize configuration errors
- Ensure confident launch

### Ongoing Support

Sustained innovation with proactive support and continuous optimization.

- Maximize testbed uptime
- Fast problem resolution
- Empower your team

## Take Control, Achieve Results with CNTL Expertise

Transform your test lab from chaotic and unmanageable to streamlined and focused on achieving your desired outcomes. Our comprehensive suite of professional and support services helps you overcome complexity and get the most out of your CNTL deployment.

Our Expertise	Our Services	How We Help and What Can I Expect?
Strategic Planning	Needs Assessment	<b>Service:</b> Analyze workflows, identify pain points, align CNTL with goals. <b>Outcome:</b> Clear roadmap and optimized solution design.
	Architecture & Design	<b>Service:</b> Develop testbed operation, L1 OOO/ L1 OEO/L2 connectivity, and resource planning. <b>Outcome:</b> Infrastructure scalability, efficiency, and avoiding costly rework.
	Project Management	<b>Service:</b> Coordinate resources, timelines, stakeholders for a smooth CNTL implementation. <b>Outcome:</b> On-time, on-budget delivery with reduced project risk.
Seamless Deployments	Installation & Configuration	<b>Service:</b> Meticulous setup of hardware/software for seamless operation. <b>Outcome:</b> Rapid time-to-value and reduced risk of errors.
	Integration & Testing	<b>Service:</b> Rigorous verification of CNTL integration with existing systems/tools. <b>Outcome:</b> Confident system integration rollout with minimized disruptions.
	Test & Lab Automation Development	<b>Service:</b> Create custom automation scripts and workflows to streamline testing processes. <b>Outcome:</b> Improved efficiency, accuracy, and reduce manual effort.
Ongoing Support	Proactive Monitoring & Maintenance	<b>Service:</b> Implement preventative measures for uptime and early issue identification. <b>Outcome:</b> Maximum resource availability with lowest operational downtime.
	Troubleshooting & Remediation	<b>Service:</b> Swift diagnosis and resolution of technical issues impacting CNTL. <b>Outcome:</b> Mitigating disruptions and ensuring faster problem resolution.
	System Upgrades	<b>Service:</b> Seamless updates to new HW/SW versions with compatibility testing. <b>Outcome:</b> Access to the latest features while maintaining continuity and stability.
	Knowledge Transfer	<b>Service:</b> Empower teams through training and knowledge base resources. <b>Outcome:</b> Building internal expertise and self-sufficiency, driving adoption of automation.

## Tailored Environments to Serve Unique Test and Lab Outcomes

Unlock the full potential of your testing with APNT's tailored solutions for diverse lab and test environments. Our extensive CNTL expertise ensures a smooth fit for your unique needs, empowering you to focus on innovation.

					
<b>Development</b>	<b>QA</b>	<b>TAC / Support</b>	<b>Service Delivery</b>	<b>POC / Demo</b>	<b>Certification</b>
Continuous integration ready	Provisioned self-service test environments	Collaborative issue resolution	On-demand resource allocation	Ready-to-Run demo catalog	Repeatable automated test environments
