Welcome

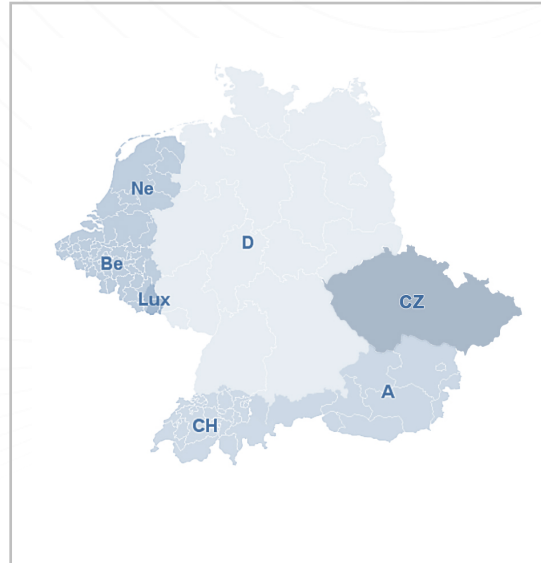

Apollo, Professionals in Networks and Testing

Inspired by the pioneering of the Apollo space project and the mission critical importance of ensuring
'all systems are go' before launch

Headquarters in Alphen a/d Rijn,
Netherlands

Service BeNeLux, DACH & Czech NEMs,
SPs, ENTs & GOVs

Industry Experts in Network Test,
Monitoring, & Automation

Market Leading Network Technologies

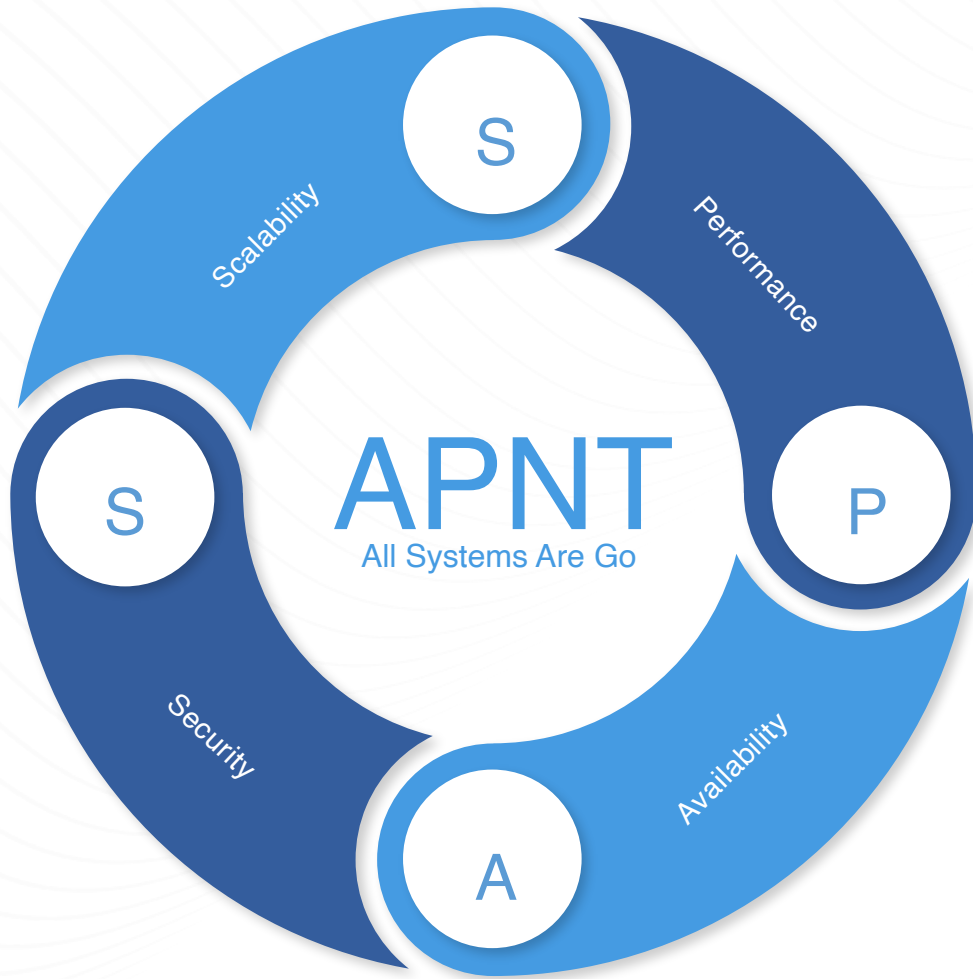

Time	Agenda Item	Details	Speaker/Presenter
18:00	Welcome	APNT Introduction	Willem Slok
18:15	Inside APNT & NETSCOUT	APNT & NETSCOUT - A unique collaboration	Patrick Johnson
18:30	Network Performance	Packets vs. Packet Flows	Marc Meulenstein
18:45	Service Assurance and why you need it	An interactive demo by APNT	Remco Poortvliet
19:15	NETSCOUT's Vision & Portfolio	What we offer	Marc Meulenstein
19:45	Break	A moment to refresh	-----
20:00	Use Cases Netscout Service Assurance	Case studies on products & capabilities	Marc Meulenstein
20:15	IT innovation with Netscout	Vision on AI with NETSCOUT	Andy Burghes
21:00	Closing & Networking	Connect with innovators	

APNT + NETSCOUT

Network Technology

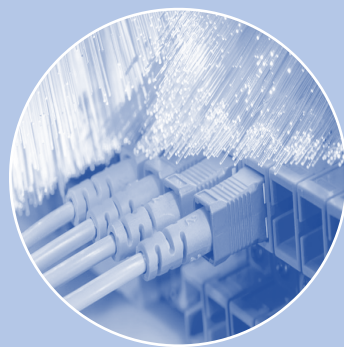

Enable our customers to explore, innovate and deliver new technologies and services in the digital age, by providing innovative network testing, monitoring, and automation solutions that ensure network technology and service performance, [availability](#), [security](#), and [scalability](#) are a ready for launch.

Diverse Expertise in Network Test & Monitoring

5G & WiFi

E2E CX
Performance

Gigabit Home

HSE
Scalability

SASE & Cloud

SD-WAN &
Zero Trust

Car/IoT/Space

Time Sensitive & Positioning

Automation

Test, lab & prevention
automation

Full Spectrum Network Lifecycle Solutions

Full Spectrum Network Lifecycle Solutions

Network Device, Application and System Test

Full Spectrum Network Lifecycle Solutions

Network Device, Application and System Test

Dev & QA Testing

Deploy real world, E2E dev and test environments w/ follow the sun automated testing in a CI/CD pipeline.

We Deliver Faster Test And Lab Infrastructure

Full Spectrum Network Lifecycle Solutions

Network Device, Application and System Test

Dev & QA Testing

Deploy real world, E2E dev and test environments w/ follow the sun automated testing in a CI/CD pipeline.

We Deliver Faster Test And Lab Infrastructure

TAC & POC Testing

Deploy more, deploy faster customer and demo lab environments with fewer OPEX/ CAPEX resources.

We Lower Lab CAPEX/ OPEX Costs

Network Device, Application and System Test

Dev & QA Testing

Deploy real world, E2E dev and test environments w/ follow the sun automated testing in a CI/CD pipeline.

We Deliver Faster Test And Lab Infrastructure

TAC & POC Testing

Deploy more, deploy faster customer and demo lab environments with fewer OPEX/ CAPEX resources.

We Lower Lab CAPEX/ OPEX Costs

Network Pre-deployment Test

Full Spectrum Network Lifecycle Solutions

Network Device, Application and System Test

Dev & QA Testing

Deploy real world, E2E dev and test environments w/ follow the sun automated testing in a CI/CD pipeline.

We Deliver Faster Test And Lab Infrastructure

TAC & POC Testing

Deploy more, deploy faster customer and demo lab environments with fewer OPEX/ CAPEX resources.

We Lower Lab CAPEX/ OPEX Costs

Network Pre-deployment Test

Vendor Validation

Improve test coverage to validate vendor claims, updates or changes.

We Enable More Test Coverage

Certified Partner

NETSCOUT
CONNECT360

Certified Partner

Strategic Planning

Design and plan a network service assurance solution

Implementation

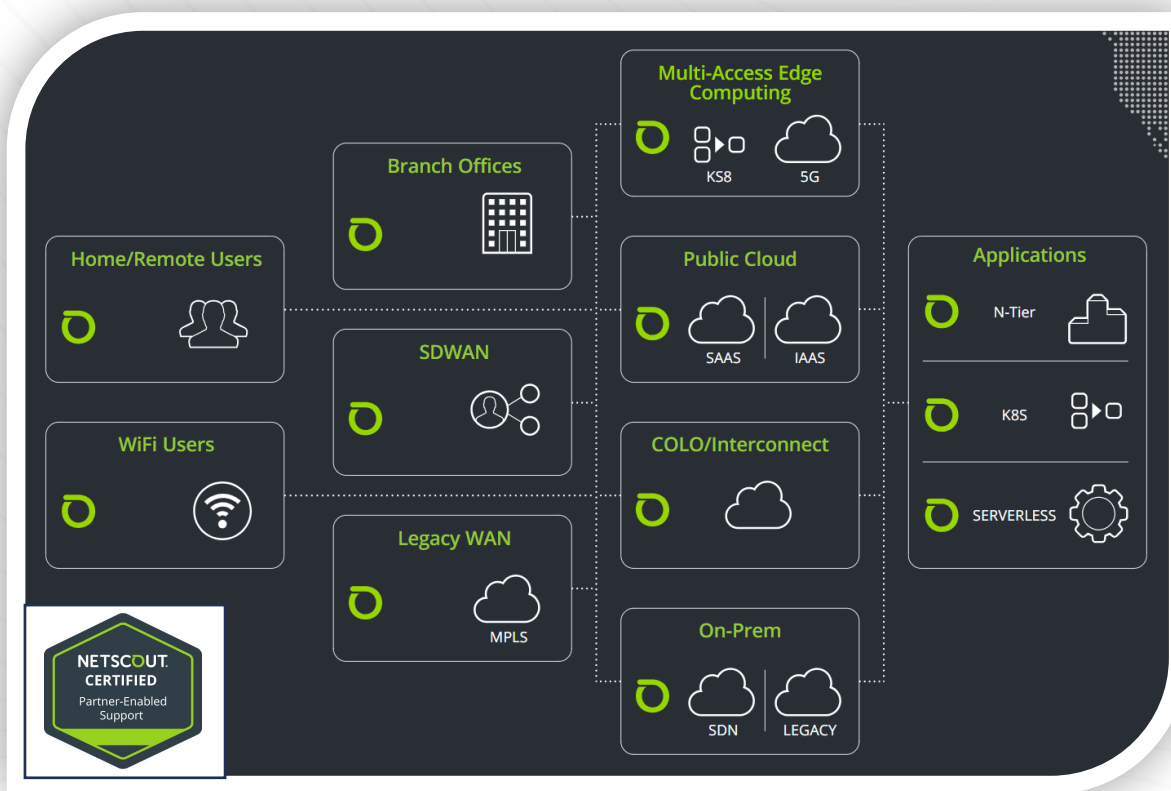

Deploy and onboard your products, people and processes

Local Support

Localized onsite and offsite experts

Management

Visibility-as-a-Service (VaaS) managed options

A person in a white spacesuit with a backpack is kneeling on a reddish-brown, rocky surface. They are looking towards a large, rounded rock formation on the left and a bright, hazy horizon in the distance. The scene is set on a planet with a reddish atmosphere, likely Mars. The sun is low on the horizon, creating a warm, golden light. The person's shadow is cast on the ground to their right.

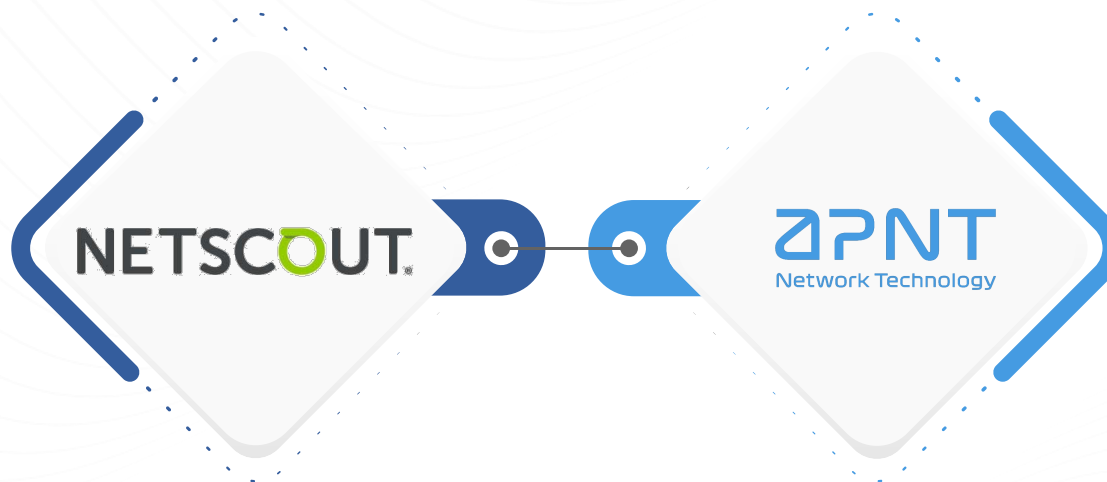

The truth lies in the packet
